Precision Performance,
Masterfully Tailored.

Dinan packages have been expanded to include new platforms (X3 & X4 M40i) as well as a new exciting tier of options for S58 powered vehicles inclusive of the G8x M2/M3/M4! Whether you are after a comprehensive transformation that includes power and handling options, or are only interested in adrenaline inducing powertrain modifications, there is a package answer for your needs. Dinan's seamless kits are a simplified solution that eliminates the guesswork, and time, in building the perfect performance solution. Packages are a one stop shop to an elevated experience!

FEATURES AND BENEFITS

ALL G8x M2/M3/M4 Packages (Foundation or Experience)

- Smiles per gallon instantly multiplied
- Guaranteed component compatibility and seamless integration
- 10% price savings when compared to buying the same components a la carte
- Maximum gains of +6 HP and +5 lb-ft of torque (Exhaust)
- Smoother, louder and sportier sound (Exhaust + X-Pipe)
- Computer controlled exhaust valves are retained and limit noise during low-speed driving and open fully during high-load conditions (Exhaust)
- Deletes resonators between the secondary catalyts and rear muffler for increased volume (X-Pipe)
- 11-pounds lighter than the stock (Stock: 66-pounds vs. Dinan: 55-pounds) (Exhaust + X-Pipe)
- Reduced intake restriction for Increased turbo efficiency with greater power potential on modified builds (Intake)
- More robust and aggressive induction soundtrack (Intake)
- Improved throttle response (Intake)

G8x M2/M3/M4 Experience Packages Only (+ Prior List)

- Increased rigidity for sharper handling and reduced flex (Strut Brace)
- Elevated and stylish high-performance look to the interior (Pedal Pads)
- Every Experience Package instantly qualifies for the Fabled Dinan deck lid badge
- Every Experience Package instantly qualifies for the Fabled Dinan deck lid badge

G8x M2/M3/M4 E1/E1+ & F1/F1+ Packages Only (+ Prior Lists)

- Maximum gains upwards of +67 WHP and +73 lb-ft of torque (PCU + Exhaust + Intake)
- Multiple power levels supporting 91 & 93 octanes that can be changed on the fly (PCU)
- Real-time vehicle health monitoring suite: logging, customizable gauges as well as the ability read and clear fault codes via a free BT app (PCU)

ALL G0x X3/X4 M40i Packages (Foundation or Experience)

- Smiles per gallon instantly multiplied
- Guaranteed component compatibility and seamless integration
- 10% price savings when compared to buying the same components a la carte
- Maximum gains of +6 HP and +5 lb-ft of torque (Exhaust + Intake)
- Smoother, louder and sportier sound (Exhaust + Intake + Turbo Inlet)
- Visual performance makeover going from bland dual tip to M-inspired quad tips (Exhaust)
- Computer controlled exhaust valves are retained and limit noise during low-speed driving and open fully during high-load conditions (Exhaust)
- 7-pounds lighter than the stock for an improved power- to-weight ratio (Exhaust)
- Reduced intake restriction for greater flow that allows increased turbo efficiency and greater power potential on modified builds (Intake + Turbo Inlet)
- Improved throttle response (Intake + Turbo Inlet)

G0x X3/X4 M40i Experience Packages Only (+ Prior List)

- Vehicle lowered 7/8" in the front and rear while retaining factory like ride comfort (Springs + Bumpstops)
- Substantial reduction in body roll for improved handling and performance (Springs + Bumpstops)
- Elevated and stylish high-performance look to the interior (Pedal Pads)
- Every Experience Package instantly qualifies for the fabled Dinan deck lid badge

G0x X3/X4 M40i E1/F1 Packages Only (+ Prior Lists)

- Maximum gains of +98 HP and +120 lb-ft of torque (DINANFLASH Handheld + Exhaust + Intake)
- Multiple power levels supporting 91 to 100 octane that can be switched at the press of a button (DINANFLASH Handheld)
- Real-time vehicle health monitoring suite: logging, customizable gauges as well as the ability read and clear fault codes (DINANFLASH Handheld)

PRODUCT OVERVIEW

Foundation packages represent the most direct path to increased power while retaining drivability and safety. The combination of Dinan modifications work harmoniously with one another and offer a balanced blend of enhanced engine efficiency, improved acceleration, and increased power to go along with a tasteful high-performance look and unmistakable Dinan sound. Whether you start with the base Foundation package that includes the core hardware building blocks (intake and exhaust) or opt for packages that further enhance your vehicles power output and abilities you will be well on your way to an elevated experience.

Going beyond its Foundation counterpart, the Dinan Experience packages address not only the engine but also the chassis for a complete solution in the form of a wholly tuned Dinan vehicle. While adding power modifiers is often the go to path when beginning the modification journey, it does not fully consider what makes the car infinitely more enjoyable in scenarios outside of WOT pulls. With the addition of suspension upgrades integrated alongside the power adds the vehicle is transformed into something more than just the sum of its parts. It's a comprehensive answer to delivering additional technical capabilities in the form of increased engine performance and better handling along with improvements to aesthetics (looks and sound) in a package designed with reliability and safety in mind. This union of power and handling modifications results in a true OEM+ experience - the Dinan Experience.

WHY GET A PACKAGE?

We understand the building a modified car in stages is often preferred for various reasons. Not knowing how deep into the modification journey you may go or simply for financial reasons are common justifications for a measured approach. However, often when building in stages, parts are mixed and matched that were not designed to interact with one another which can lead to sub-par results and unhappiness with a vehicle you should be enjoying. By purchasing and installing popular curated packages of parts that were all designed to work with one another you bypass these common faults and receive a complete solution you can enjoy to the fullest from day one. As a bonus, a 10% discount is applied to package purchases compared to buying the same components a la carte.

APPLICATION-SPECIFIC PRODUCTS

YEAR RANGE	MAKE	CHASSIS	MODEL	NEW PACKAGE OPTIONS
2023-2025	BMW	G87	M2	F1, F1+, E1 & E1+
2021-2025	BMW	G80	M3	F1, F1+, E1 & E1+
2021-2025	BMW	G82/G83	M4	F1, F1+, E1 & E1+
2020-2024	BMW	F97	X3M	F1, F1+, E1 & E1+
2020-2025	BMW	F98	X4M	F1, F1+, E1 & E1+
2018-2025	BMW	G01	X3 M40i	F, F1, E & E1

EMISSIONS

This part is legal under the provisions of EPA's Tampering Policy dated November 23rd, 2020. The company has reasonable basis (test results) to verify that this product allows the vehicle to operate within legal emissions standards and is therefore legal to be sold for on-street use in all states that accept the legal provisions of the Clean Air Act and the EPA Tampering Policy. This product is NOT LEGAL FOR SALE OR USE IN THE STATE OF CALIFORNIA. Testing with the California Air Resources Board, in order to achieve 50-state compliance, is pending with CARB. Once testing is complete with California, and an E.O. number is issued, this product will be updated to 50-state legal status
